Kambi

 **binero**

Agenda

14:00 Introduktion av alla deltagare plus nyheter från communityt.

14:20 Confidential cloud computing: choose your platform.

14:50 Q&A

14:55 Kaffe

15:00 Monitoring at scale with Open Source tools by Kindred.

15:30 Q&A

15:45 Kaffe

16:00 Smarta kort i Linux, hur svårt kan det vara?

16:30 Q&A

16:45 Supercharge your OpenStack with OKD by Binero.

17:15 Wrap up

17:20 Burger/beer/brus/läsk @ Regeringsgatan 21.

Tack till!

kindred

För lokal/kaffe/bulle/öl/brus/burgare!

Burgare, if not on previous list... =(

Become Peters (from Kambi) new best friend! =)

Who are you?

Too many people too little time! =(

Instead!

Speed coding! (Rules will follow)

The prize?

Glory and much rejoicing!

AND!

One (!) free ticket to OpenInfra Summit Berlin 7 to 9 of June! (randomized within winning team)

OpenInfra Summit Berlin

● June 7-9, 2022 @ bcc Berlin Congress Center

- OpenInfra Summit is back in person!
- Registration is live!
- Prices go up March 18
- Sponsorships are available
- Contact us: summit@openinfra.dev

See the full schedule, registration and sponsorship info at
openinfra.dev/summit

The competition!

Speedeed coding

Task: As a team, write 3 quick scripts (python or bash) that transforms input to output

Rules

YES, you may parallelize within the team.

YES, you may write the scripts straight in an email and not test them to gain speed...

BUT, if they do not work (on my laptop GNU bash 4.4, python 3.6.13) , 0 points for that task.

1 point for each working script. Max 3 points.

If equal points, first to send in all working scripts wins*. (*Timestamp in my inbox is the qualifier)

Time limit: 6 minutes

Hint: Prepare email right now to dbystrom@kth.se so you just need to hit ctrl + enter.

The competition!

Step 1: Form teams! Minimum 5 per team. Approximately 15 teams.

Step 2: Name teams!

Step 3: Get to know your team members thoroughly and form more or less permanent friendships!

The competition!

Script 1: Addition

Input:> ./script_1.sh 1 + 1

Output:> 2

Script 2: List reversal

Input:> ./script_2.sh 1 2 3 4 5 6 7 8 9

Output:> 9 8 7 6 5 4 3 2 1

Script 3: md5 checksum of web site

Input:> ./script_3.sh www.x.se

Output:> The md5 checksum of the front page (/) of www.x.se.

Email script_1, script_2 and script_3 to dbystrom@kth.se.

6 minutes!

Ready...

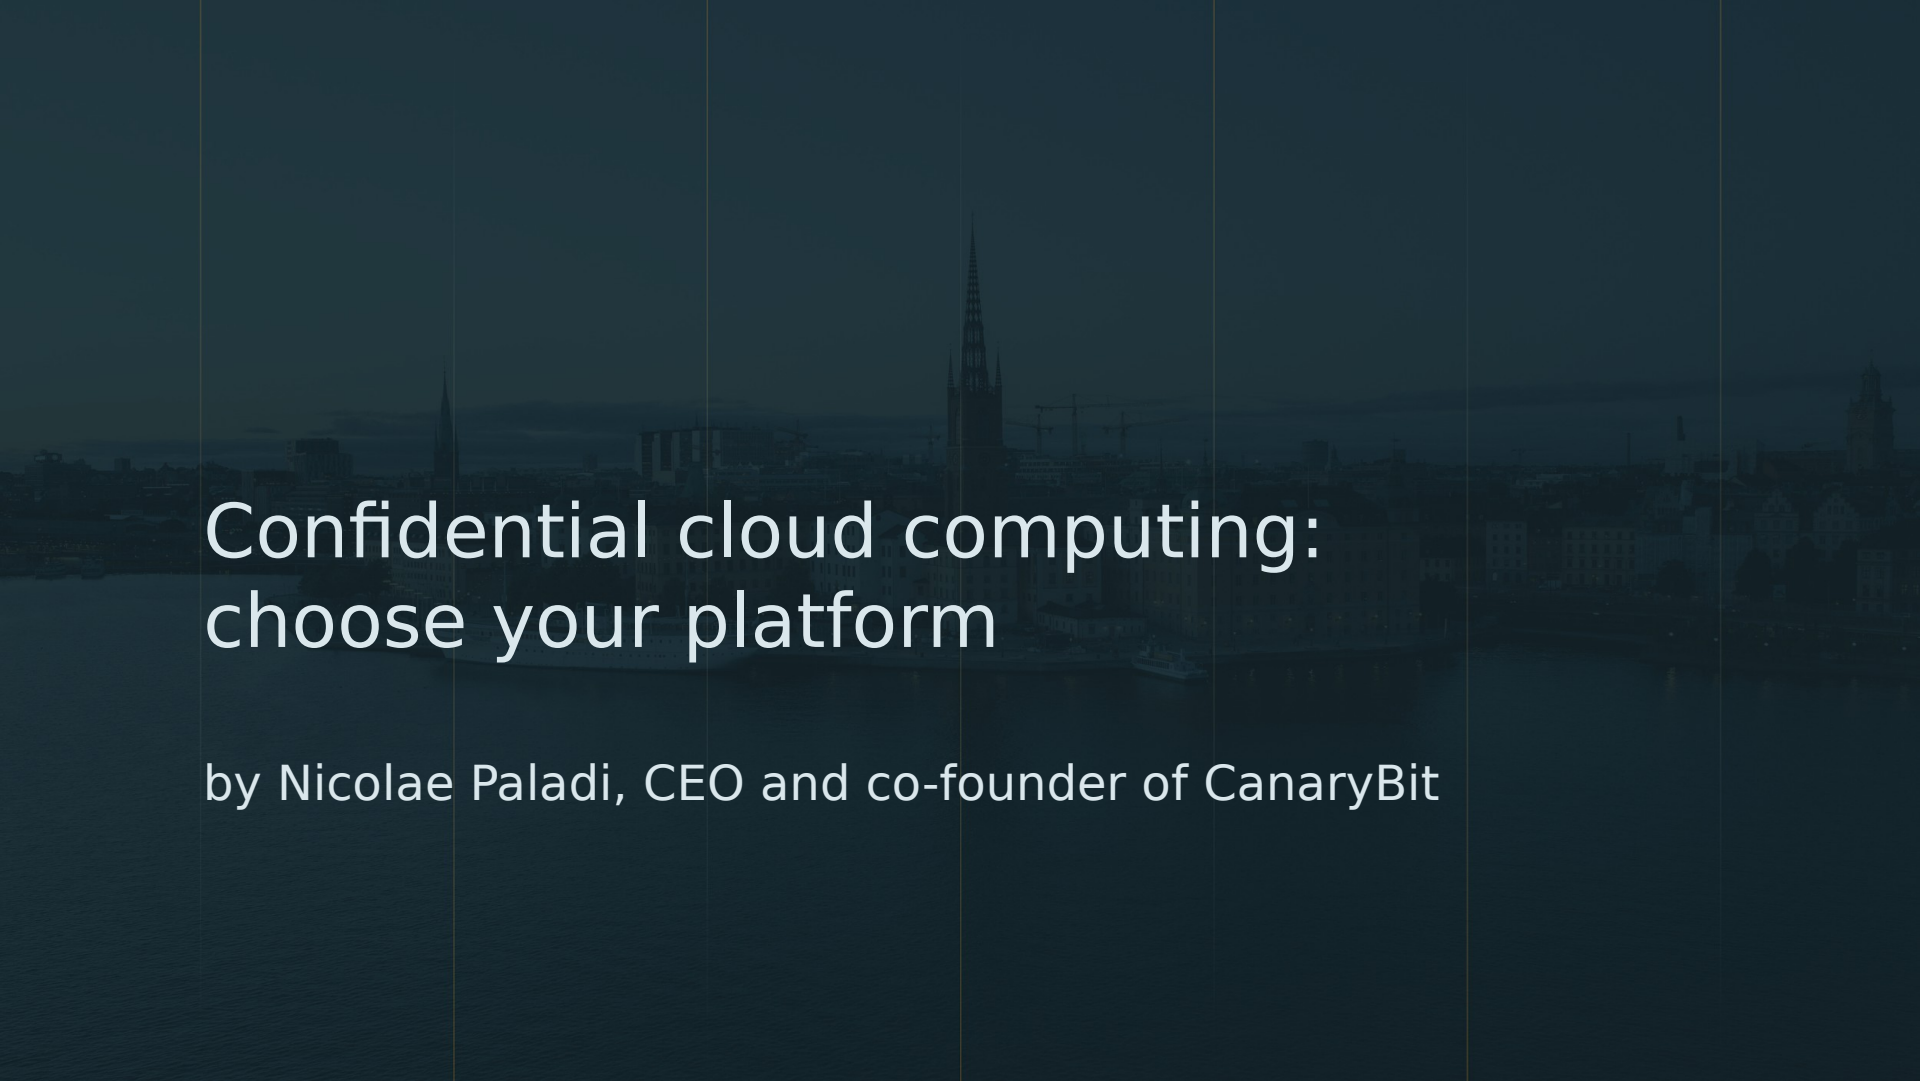

Set...

Go!

The competition!

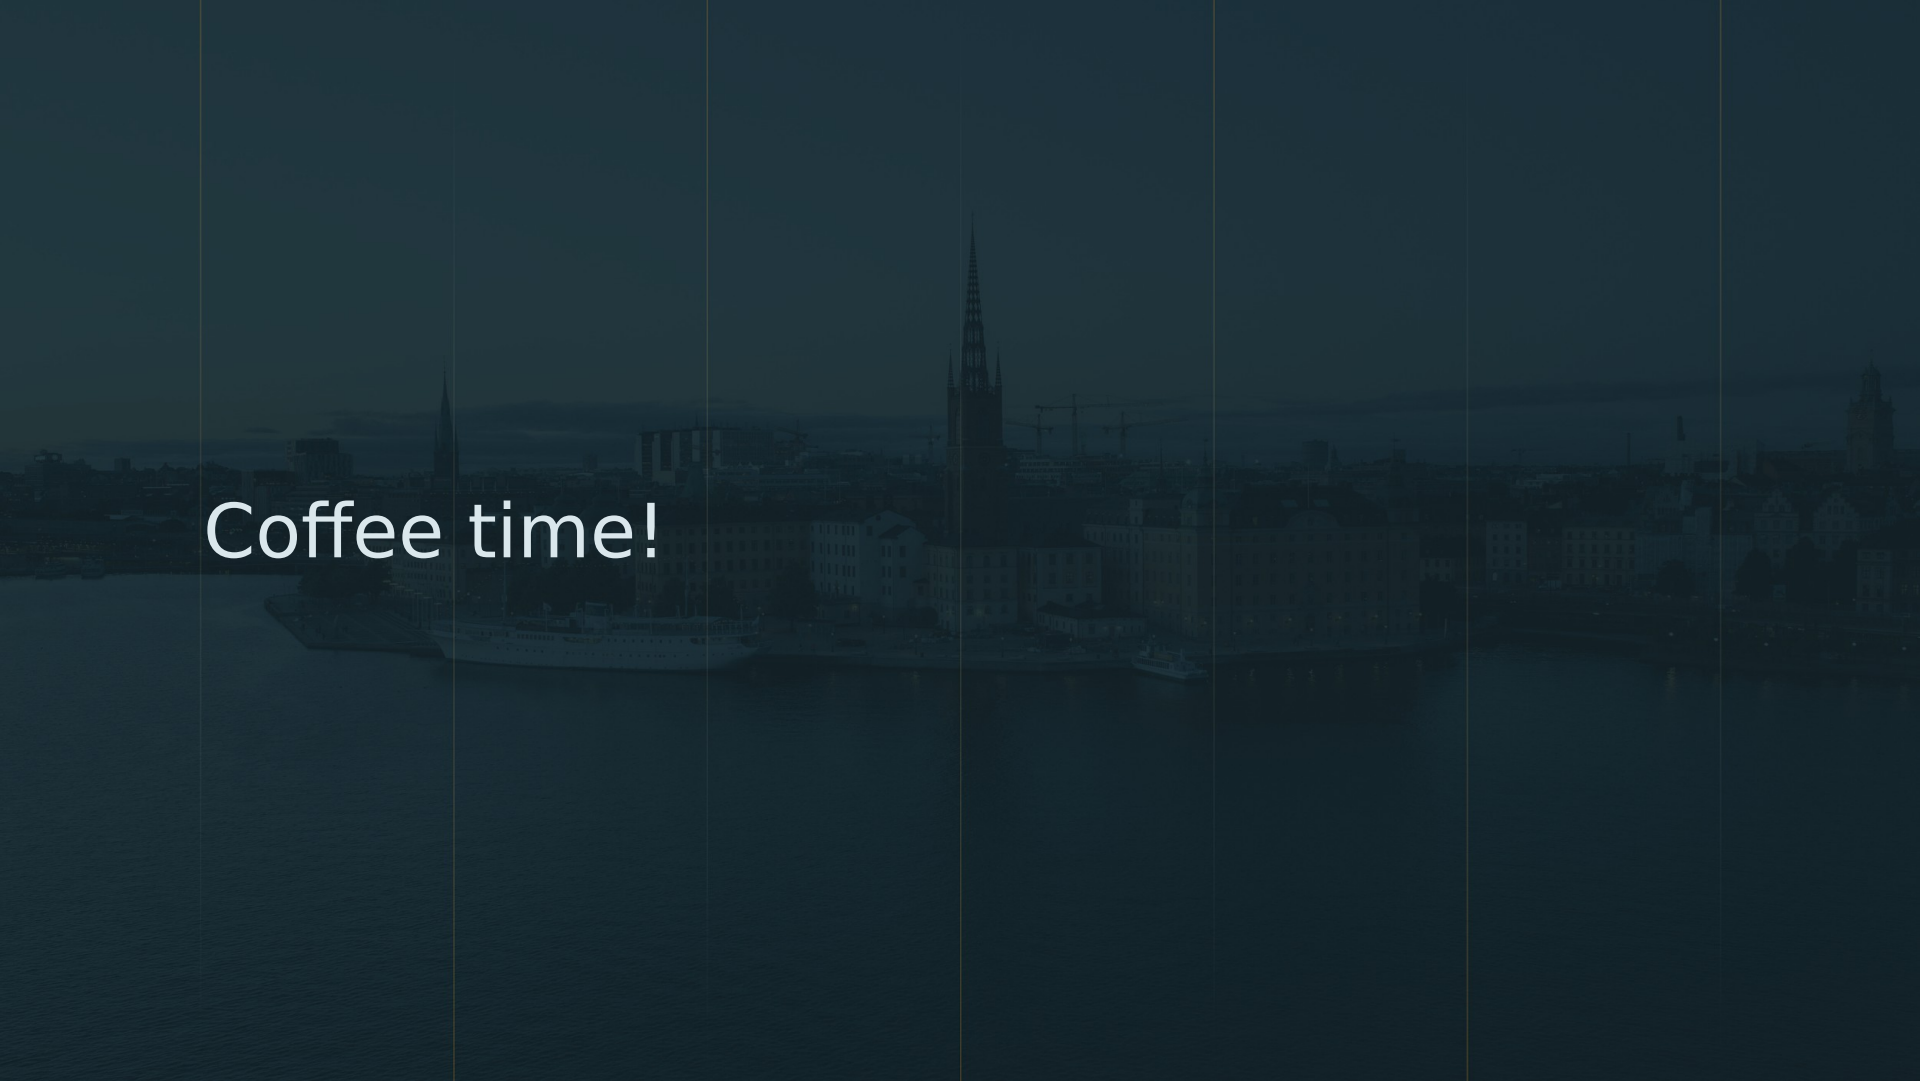

Great job!

Winner will be presented during Wrap Up!

Confidential cloud computing: choose your platform

by Nicolae Paladi, CEO and co-founder of CanaryBit

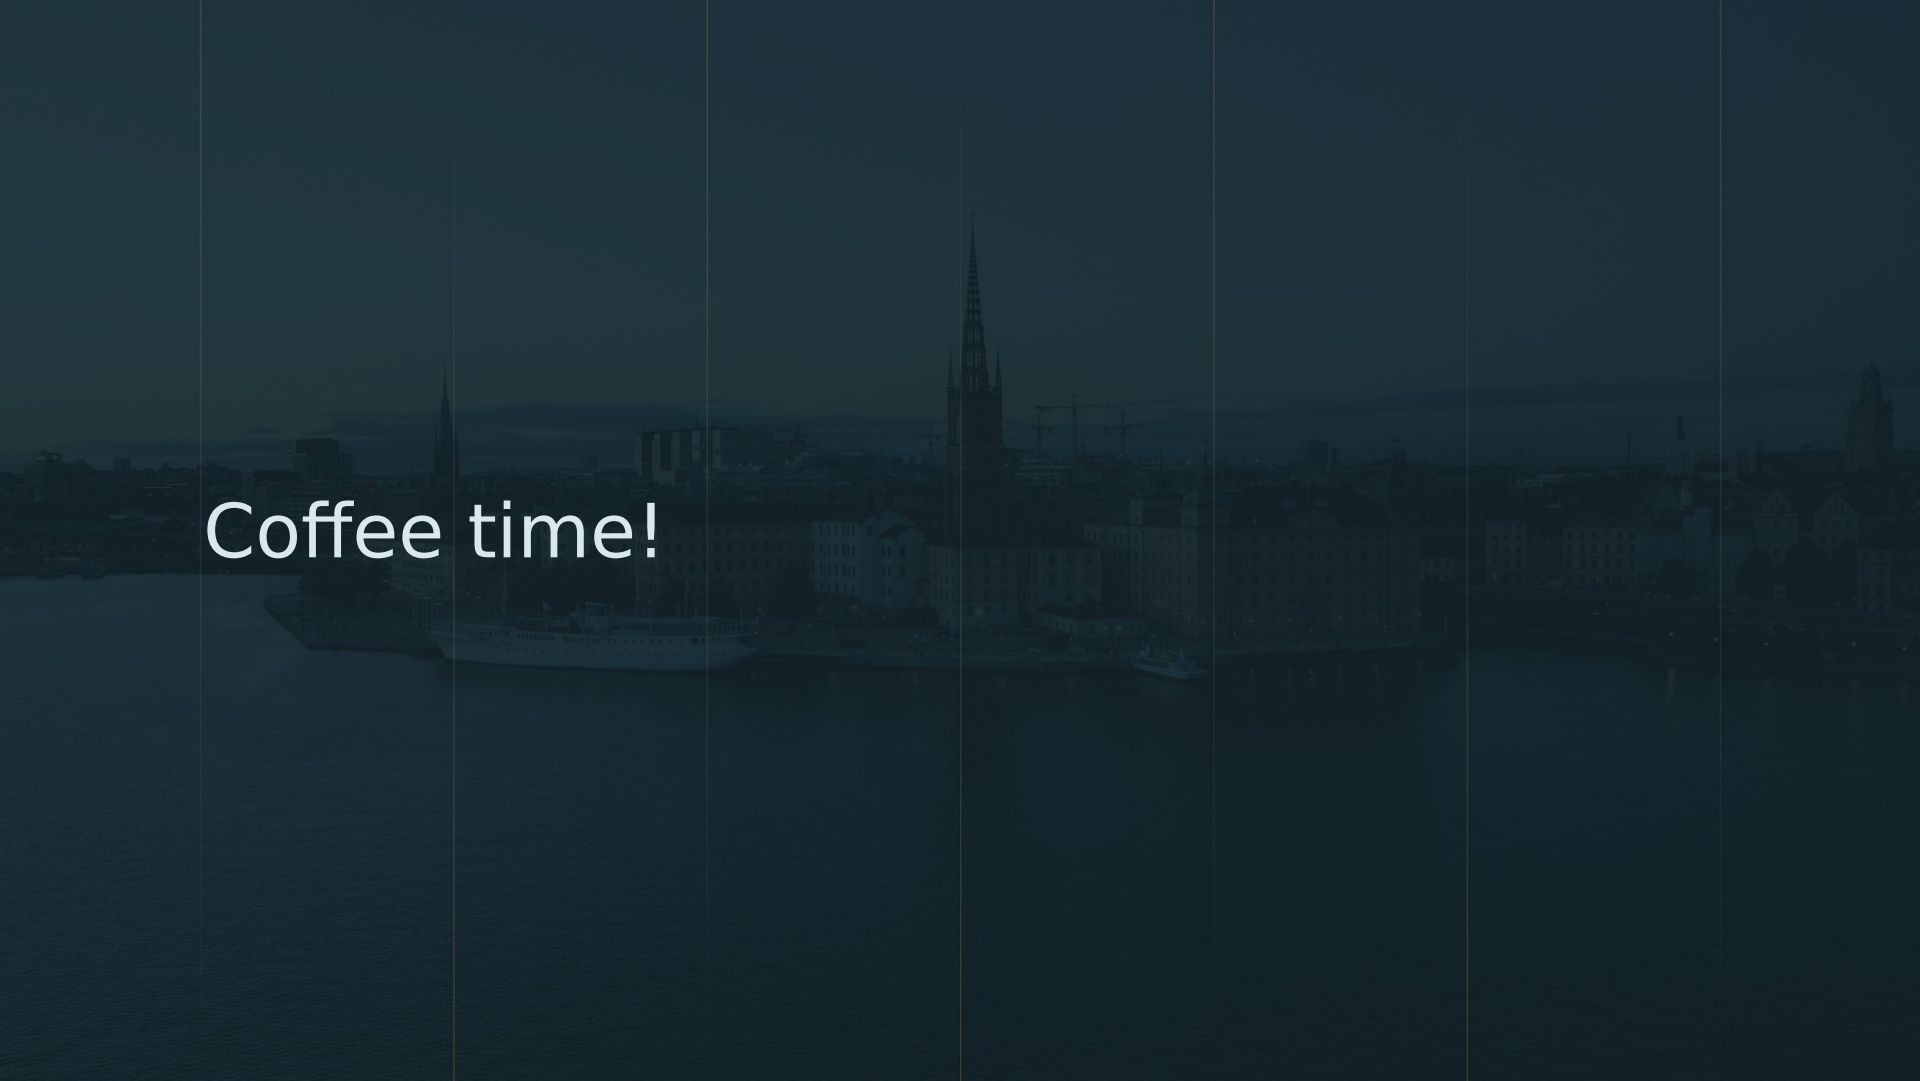

A dark, atmospheric photograph of a city skyline across a body of water. The image is dimly lit, with a prominent church spire rising from the city center. Several construction cranes are visible in the background, suggesting ongoing development. The water in the foreground is calm, reflecting the city lights. The overall mood is quiet and contemplative.

Coffee time!

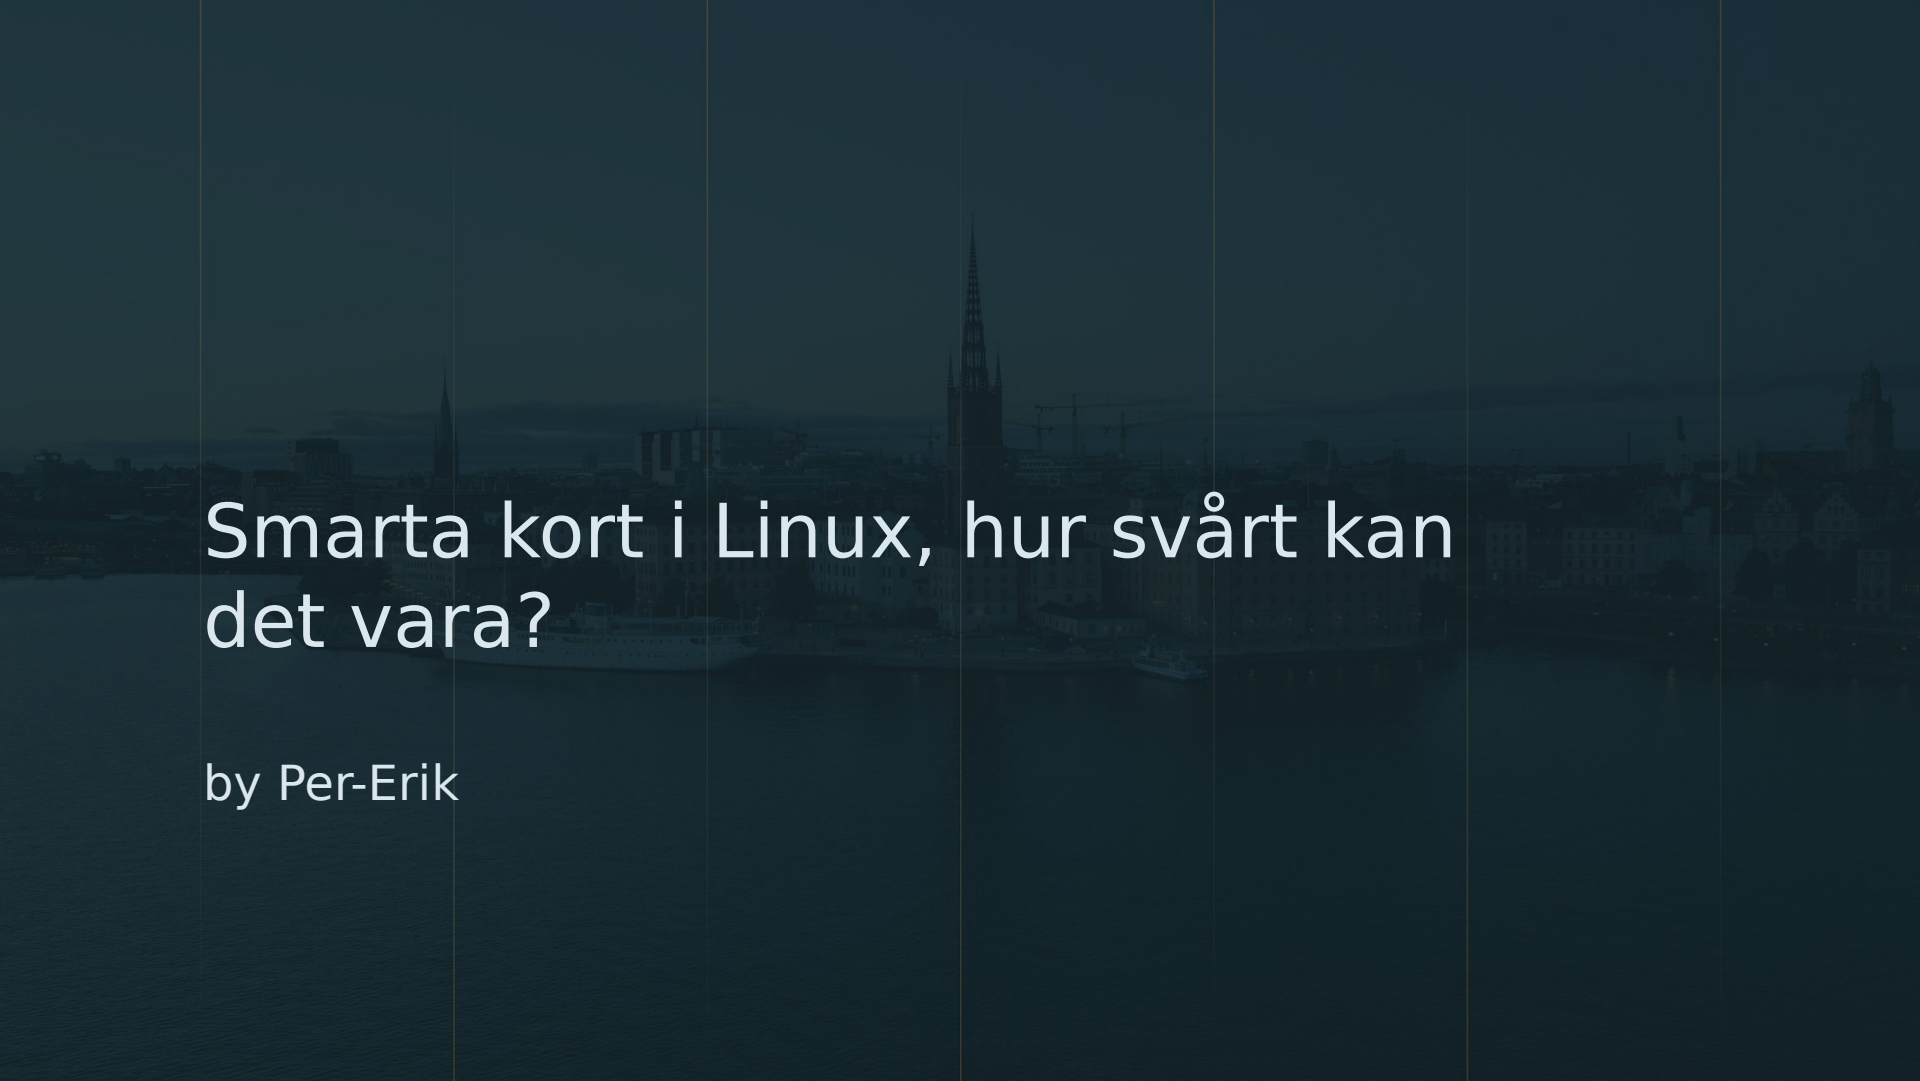

Monitoring at scale with Open Source tools

by X, Y at Kindred Group AB
